

FOR IMMEDIATE RELEASE

**PEGGY STAP OF MARINE LIFE STUDIES PRESENTS EDUCATIONAL PROGRAMS AT
BLUE OCEAN FILM FESTIVAL IN MONTEREY, CALIFORNIA**

Monterey, California (August 22, 2010) - Peggy Stap, Marine Life Studies Founder and Director of Research & Education, joins the impressive list of speakers and presenters at the BLUE Ocean Film Festival in Monterey, California, August 24-29, 2010.

Debbie Kinder, CEO and Executive Director of the [BLUE Ocean Film Festival](#), remarks, "We're very excited for BLUE this year and are so honored by Peggy Stap's support. We are thrilled that Marine Life Studies is a part of our incredible event!"

Peggy Stap will present several programs including, *The Squid Eaters of Monterey Bay*, and *Help Save the Oceans from Marine Debris*. Also included in the *Marine Life Studies Educational Adventures* is a *Whale and Marine Wildlife Watch on Monterey Bay*. Peggy Stap will be the guide on two exciting whale watches where guests may see blue whales, humpback whales, Risso's dolphins, otters and more.

Peggy Stap explains, "Children become excited and respond with unbridled enthusiasm! Their self-esteem builds, too, as they learn the value of becoming active stewards of the animals and environment entrusted to us all. We are thrilled to have the opportunity to present our programs at the BLUE Ocean Film Festival in Monterey. The Marine Life Studies mission is in perfect alignment with the BLUE mission."

[Marine Life Studies](#) is a nonprofit organization specializing in research, education and conservation, and is dedicated to teaching and inspiring the public to protect marine wildlife and the environment. Marine Life Studies provides wonderful opportunities for children to learn about the ocean, the environment and the whales and dolphins in the Monterey Bay National Marine Sanctuary through classroom study, hands-on activities, and boat research trips.

BLUE Ocean Film Festival is a global film and conservation event founded to promote, honor and share films that inspire people to protect our oceans and the life within.
